TIME FRAME

➤ Time frame kya hota hai?

Chart par jo ek candle dikhti hai, vo batati hai ki itne samay me price kya kya kiyaa hai.

Aur humare pass time frame ke through ye facility hai ki hum kitne bhi samay ka candle lga ke dekh sakte hai ki market ne kese movement kiya hai aur isse market ke bahetar tarike se samjha ja sakta hai.

Eg.:

- 1 minute (1m) → 1 candle = 1 minute ki kahani
- 5 minute (5m) → 1 candle = 5 minute ki kahani
- 15 minute (15m) → 1 candle = 15 minute ki kahani
- 1 hour (1H) → 1 candle = 1 hour ki kahani
- 1 day → 1 candle = 1 din ki kahani

✳ Timeframe badalte hee candle ka zoom level badal jata hai.

Eg.: mobile camera zoom jaisa samjho

- Zoom out (daily / weekly) → pura trend dikhata hai
- Zoom in (5m / 15m) → chhote-chhote moves dikhte hain

➤ Best Time Frame

- 1D / 1 Week → Very big picture (Investment)
(Agar jaana hai ki next 6m, 1y, 2y me market kahan jaayegi)
- 1h / 1h → Good for next 2–3 din / 1–2 week main market kahan jaayegi
- 15 / 15 min → Good for intraday aur agar janna hai aaj market kya karegi
- 1 / 3 min → Good For Scalping

* Best use of Time Frame:

- 4h → Market direction / Key levels
- 1 Hour → Demand / Supply zone, liquidity
- 15 min → Breakout / Change / BOS
- 5 min → Confirmation entry
